Sir:

In reply to the notice of non-responsive reply, applicant requests reconsideration of the objection that the reply filed on September 29, 2008 contains no remarks or arguments drawn to the rejection of claims 7-9. The third page of applicant's arguments and remarks (on page 4 of the reply) states that the arguments presented in support of claim 1 are also applicable to claim 7 and that therefore claim 7 is patentable and it follows that the dependent claims 8 and 9 also are patentable. Applicant submits that this statement constitutes an adequate argument in support of claims 7-9.

Respectfully submitted,

John Smith-Hill
